The image shows a set of graphs for weather observations and forecasts.

1. **2m Temperature**
   - The graph displays the temperature at 2 meters above the ground from 14 Jul 2021 15:00 UTC to 16 Jul 2021 2:30 UTC.
   - The temperature values range from 18.0°C to 28.0°C.

2. **Accumulated Precipitation**
   - The graph shows the accumulated precipitation from the same period.
   - Precipitation values range from 0.0 mm to 0.1 mm.

3. **10m Wind Speed**
   - This graph illustrates the wind speed at 10 meters above the ground for the same period.
   - Wind speeds range from 2.0 m/s to 10.0 m/s.

4. **10M Windspeed Forecast-Observed**
   - This graph compares the forecasted wind speeds with observed values.
   - The forecasted values are shown in green, and the observed values are in black.

The graphs are titled with metadata indicating the date and time of the data collection and the source of the data.
