Clicker setup:

a. Turn on the clicker device. It will attempt to scan for classes
b. To enter your UA student ID

1) Press the * key twice. The screen should read "Setup menu" and an arrow to "New class scan" underneath that.
2) Press the UP arrow key once. It is just to the right of the on/off switch. You will see "Setup menu" and an arrow to "ID" underneath that
3) Press the green arrow key once. The screen will read "ID:" and "Enter student ID underneath.
4) Now you need to enter your student ID number (S + 8 digits)– your responses will NOT be recorded for credit if the incorrect number is entered!

   i)   To enter letter S, press one of the letter keys on the device andthen use the up or down arrows to scroll to the letter S.
   ii)   then use the numeric keypad to enter the eight digits following the letter S.
   iii)   After you enter your student ID, press the large green enter button with the arrow. The screen should read "Setup menu" with ID: (your student ID) below that. So, for example, ID: S01234567

c. To find your radio number

1) On the setup menu, page up or down until you reach "Diagnostics", hit the green enter key once
2) The screen will give the battery life left and the radio ID number of the device below that. The radio ID has six characters. For example: Radio ID F3AB55
